Dear

I am interested in applying for the Model position for your project. I heard of it through one of your ads and took interest in the opportunity to contact you. I have a background in modeling/acting. In which I have been modeling for a year. However, I have been an actor for 2 years now.

With my unique looks, as well as my versatility I have successfully achieved a goal of mine by being a part of an model/acting agency called latitude talent studios. I have worked with a few brands including GU Japan, BUF( Be United fitness) and Ligardy hats. As well as a short film called "JAB" which premieres in 2024. With the projects I've been a part of so far I can assure you that the people I've worked with have been happy and confident I can be able to work professionally and express myself which fits well with the photographers and the directors. I can be a suitable candidate for your up and coming project. I know with my skills, talents, perseverance and personality I can make your vision come through the project.

I believe that models should not only portray the beauty and the look of health and fitness, but to practice and live the lifestyle as well. Having that in mind, I am very disciplined in maintaining a healthy diet and fitness regime to feel positive and keep my physique in excellent condition. I am confident that my progressive experience and achievements coupled with my disciplined nature will enhance and fit well with your company's image.

Please refer to my headshot photo enclosed herein and my Instagram which speak for themselves.

Please do not hesitate to contact me by phone or email to fix up an interview at your convenience.

Thank you for your time and consideration.

Sincerely,

**Justin Vasquez**
